CHICAGO PRODUCE MARKET.

Chicago, Oct. 2.9—[Special Telegram to the Ber.]—The first impulse of the wheat market this morning was slightly upward and there was plenty of business, but the promise of the first hour was not fulfilled and the greater part of the session saw a dull and spiritless market, with prices dropping quite steadily, the princal cause therefor be ing the usual Saturday "evening-up" prowith a dearth of business from the outside. The opening was a little below the closing prices of yesterday afternoon, with December at 78%c and May at 79%c. Early trading was in quite large volume, with buying largely concentrated in a few houses, among which exporters were prominents, although the biggest blocks were taken by local speculators. The selling was scattered and much of it by smaller room traders, who were disposing of long wheat in quantities that were not large for each individual, but were considerable in the aggregate. From the opening wheat sold up to 7336c for December and to 795/00795/e for May, then gradually de clined to 7314@7354c for Dacember, which closed at that figure, and to 79c for May, which closed at 79@791/c.

Corn traders had a very quiet day, with comparatively small business, slight fluctua tions and but little news affecting the market. The tone was rather weak, but with only Mc decline for December, Make for May and 3/601/ce for November, the last named delivery suffering the most on account of the free selling of Hutchinson and Baker. Foreign news was unfavorable, but was not much talked about and could hardly be said to have any influence on the market. The trading was chiefly local. Shipments of corn from Chicago were 347,000 bushels and vessel room was taken to-day for 183,000 bushels. Receipts continue rather light, 277 cars being the arrivals to-day and 275 cars being the es-timate for Monday. Reports received here by commission men would indicate that this market will not be flooded with corn from Nebraska, at least, shippers in that state finding it more profitable to send their corn to Kansas. Buyers from parts of Kansas where a good crop was anticipated are said to be buying in Nebraska and Kansas cattle to be buying in Nebraska and Kansas cattle are being sent to Nebraska to feed. November corn opened at 41½c, sold down to 41½c, and closed at 41½ (a41½c). December opened at 41½c, sold down to 41½c and closed there. May opened at 45½d-45½c sold at 45½c, and 45½45½c and closed at 45½c.

In the oats mrket it was the same old story over again of high speculation and little or no fluctuation.

story over again of high speculation and little or no fluctuation in prices. Triding in May, the leading future was at 29%c at the opening and at 29%c 20%c on the split, with 29%c the market at the close. October was quotable at 25%c early off to 25%c and December was salable at 25%c, which was a shade at 25%c, which was a

emper was salable at 25740, which was a shade stronger.

Provisions suffered something of a reaction, the shorts having been driven to cover on yesterday's sharp and unexpected advance. The market sadiy missed sustaining support and with professional speculators seilers sank under the weight of offerings. Trading opened at prices only a little unde last night's closing prices, but the receding movement set in early and continued up to the very close, when the lowest prices of the day were established. The actual decline suffered was 15c, on October lard, 10c on De-cember and January lard and October and cember and January lard and October and January short ribs, 7½ on November and May lard and 22½ on January pork. January, which was the leading speculative month, sold from \$12.62½ early down to \$12.40, lard from \$6.40 down to \$6.20 and short ribs from \$6.40@6.43½ on the split down to \$6.30. For this month the closings down to \$6.30. For this month the closing: stood at inside prices.

FINANCIAL.

NEW YORK, Oct. 29 .- [Special Telegram to the BEE. |-STOCKS-The stock market the past week has been dult with a decidedly vacillating character and fluctuations cover ing a wide range. It has, however, been mainly a professional market, with the bulls and bears about evenly matched. Both sides at times had their innings. The bears had the last innings, but failed to secure material declines. The best stocks have been fairly well supported, while the non-dividends and riff-raffs were used as a club to hammer the good ones. The bears sold freely and the short interest is placed at 150,000 shares. The appointment of a receiver for the Chesapeake & Ohio and the rumors that the Mis souri, Kansas & Texas and other weak roads were about to follow, were the chief depressing factors. The latter is leased to the Mis-

souri Pacific, which is obliged to pay all in-terest charges. Jay Gould, incan interview, says the attack on the Missouri, Kansas & Texas property the other day was wholly unjustifiable. The company has no floating debt and it has money enough in the treasury now to pay all its approaching interest charges. The loss on the price of the stock is due, of course, to the Atchison people and the St. Louis & San Francisco company par-alleling some of the Missouri, Kansas & Texas lines by building through the Indian territory. The market to-day opened weak and nervous. London quotations came in lower, Missouri, Kansas & Texas general mortgage 4s being seven points lower. Reading, Northwestern, Lake Shore, Missouri Pacific and Union Pacific were offered freely by the bear leaders and they weakened fractionally. The bank statement was a favorable one, showing an increase in the reserve of \$2,598,950. This had a stimulating effect, the buying increased, a short rally followed, and out of thirty-eight stocks, twenty-one showed advances extending from 1/4 to 1/4 per cent and six declines of from 1/2 to 11/2 per cent, the latter being on Lake Eric & Western. Eleven were unchanged. Compared with last Saturday Cotton Oils are up 41/4 and Western Union % per cent. Missouri, Kansas & Texas closed 3½, Missouri Pacific 2½, St. Paul 1½, Rock Island 2¼, Northwestern 1/4 and Lake Shore 1/4 per cent lower. The total sales to-day were 146,754 shares, including 46,840 Reading, 27,150 St. Paul, 9,100 Northwestern and 2,944 Lackawanna.

The average quality of the hogs was good, and there were some extra good loads of heavy hogs. The market opened strong and active and the offerings were quickly taken. Four loads of heavy hogs averaging 300 to 350 lbs and over reached \$4.40, which was 50 more than anything brought yesterday, but they were better than anything that was here yesterday.
